Our products tailored to your requirements.

Life Science

You can customise all SARSTEDT products according to your wishes.

One-of-a-kind service – a variety of options

Customising products has gained significance in recent years and is an important trend in modern brand communication. Internal processes can also be optimised considerably through custom-adapted products.

You know SARSTEDT as a leading manufacturer of high-quality consumables and a solution provider for science and medicine. **Beyond our established product range, we offer you a wide variety of options for tailoring SARSTEDT consumables to your requirements: custom labels, different colours or packaging sizes, higher purity grade, etc.**

We are also the right partner for custom solutions. We support you in defining your customer-specific product. Analysis, development and production – from the concept to production readiness – your very personal product for your very special requirements. You face a challenge – we find the solution.

We put together a team of experts just for you who work closely with you to develop solutions for your special requirements.

No matter what sector you are in or what challenges you face, we have the competence and experience to develop the perfect customised solution for your company.

Contact us to find out more about how we can meet your specific requirements.

We will find the ideal solution for you!

Discover the possibilities!

The right solution can be so easy. Success stories from our customers:

Colour coding

“SARSTEDT pre-assembled its screw cap micro tubes for us with different coloured caps. This means the filled products are individually labelled. It’s really helpful for us in our process.”

Custom product solution

“To optimise internal processes, we had to replace a glass tube with a new product made of plastic. SARSTEDT supported us in development from beginning to end and we were able to successfully implement the new product.”

Packaging

“We ship test kits, which are included with the SARSTEDT Minivettes®. SARSTEDT manufactured customised packaging for us. This has given us enormous flexibility in the shipping process and strengthened our brand.”

Labels

“Our challenge was archiving our samples in tubes which have to be rapidly identified. For this purpose, SARSTEDT added our own barcode label to its products. The ideal solution for us.”

SARSTEDT products tailored to your requirements – discover a world full of possibilities!
